Job Description:

We are looking for a highly skilled Full Stack Developer to join our team at GMI in Chennai. As a Full Stack Developer, you will be responsible for designing, developing, and maintaining our web applications using Python, Django, React.js, and PostgreSQL. You will work closely with our development team to ensure seamless integration of front-end and back-end components.

Responsibilities:

- Design and develop scalable and efficient full stack applications
- Collaborate with cross-functional teams to identify and prioritize project requirements
- Troubleshoot and debug issues in the application
- Stay up-to-date with industry trends and best practices in full stack development
- Participate in code reviews and ensure high-quality code is maintained

Requirements:

- Bachelor's degree in Computer Science or related field
- 2-3 years of experience in full stack development
- Strong understanding of HTML, CSS, and JavaScript
- Experience with Python, Django, and PostgreSQL
- Familiarity with React.js and its ecosystem
- Strong problem-solving skills and attention to detail
- Excellent communication and teamwork skills

If you are a motivated and experienced Full Stack Developer looking for a new challenge, please submit your application with a cover letter and resume. We look forward to hearing from you!
